

GO BIGGER GET BETTER

Your property has signed a bulk agreement for Frontier® Fiber services. Soon you will have the opportunity to order these new Fiber services and enjoy an ideal experience streaming videos, gaming, video conferencing and more!

What happens next?

In the coming weeks, your Frontier team will share a dedicated Bulk Customer Hotline for placing orders for these services and any additional services or equipment. More details will be provided in a future communication.

While awaiting your opportunity to place an order for the contracted services, please avoid committing to any extended agreements or guarantees with other providers, ensuring a seamless transition to Frontier.

Upon receiving the new Frontier bulk services flyer from your property, you will need to contact the dedicated Bulk Customer Center to place your order.

The new services will not be automatically added to your account.

Please wait for the notification from your property before reaching out, as the bulk services will only be available after that notification is sent.

We are delighted to offer the very latest technology for your home at exceptional value. Thank you for allowing us to serve you.

Your Frontier Community Connections team
